YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY—THE BINNACLE OF BUSINESS
The seas of industry, while uncharted in many respects, are very definitely indicated in the modern "log" of business—the City Directory

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

CAUTION! Deal only with well known publishers when giving orders for Directory Advertising
Read all orders carefully before signing—Pay no money in advance
All well-known publishers instruct their men to collect nothing prior to publication.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

SACRAMENTO STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS

1930

COPYRIGHT, 1930, BY SACRAMENTO DIRECTORY CO.

In the following list the streets are arranged in alphabetical order. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. To find occupation of householders, refer to Alphabetical List of Names. Numerical streets follow the alphabetical streets.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY—THE BINNACLE OF BUSINESS
The seas of industry, while uncharted in many respects, are very definitely indicated in the modern "log" of business—the City Directory

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

CAUTION! Deal only with well known publishers when giving orders for Directory Advertising

Read all orders carefully before signing—Pay no money in advance

A THUMB NAIL SKETCH OF NORTH SACRAMENTO

(By North Sacramento Chamber of Commerce)

SUBDIVIDED out of original Rancho Del Paso, or Haggin Grant, in 1910, an incorporated in 1924, North Sacramento has grown from a grain field to a town of over 5000 in seventeen years.

The contiguous territory comprising the areas known as Hagginwood, Woodlake, Rio Linda, and Robla support a population in excess of 10,000.

Since incorporation approximately $300,000 has been expended in street improvement alone and this includes Del Paso Boulevard, 100 feet wide, traversing the central portion of the town. A modern, sanitary sewer system has been completed, connecting with every part of the town.

The North Sacramento School District comprises modern, well-equipped schools, being attended by more than 1500 children.

The spiritual needs of the community are cared for by four churches: Methodist, Nazarene, Roman Catholic and Bethel-Lutheran. The social life is represented by the Woman's Club, Rotary and Exchange Clubs, and the Masons. The North Sacramento Chamber of Commerce is, of course, representative of all, and has been the moving force behind all improvements and developments since before the incorporation of the town. It is equipped to supply complete and reliable information on all matters relating to the entire district.

One of the outstanding advantages of North Sacramento is its water supply. Pumped from deep wells it has shown a continuous record for purity surpassed only by the purest or high mountain springs.

Located between the converging lines of the Western Pacific and Southern Pacific and traversed by the Sacramento Northern Railroad, North Sacramento offers the manufacturer the best sites for industrial enterprise in Northern California.

North Sacramento local traffic is served by the Sacramento Northern Railroad and the North Sacramento Stage Line which latter operates a schedule of forty-two round trips daily to and from Sacramento.

The volunteer fire department has twenty-five men under call.

North Sacramento is seven minutes from the center of Sacramento over a broad concrete highway, and is three miles from Del Paso Park, the 800-acre public park of the City of Sacramento, containing one of the finest municipal golf courses in California.

It has two newspapers of general circulation and the homeseeker will find modern well-stocked stores to satisfy every demand, and including a branch of one of the largest banking institutions in the City of Sacramento.

Has a first class hotel with free garage.

Has one of the largest apiaries in the State, doing a nationwide business in bees, queens, honey, wax and bee supplies.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Directory and Reference Media

THE reference medium or directory, whether it is a city directory, state gazetteer or a business directory, ties up closely with other forms of advertising. It is distinguished from the creative style of advertising in that it is **passive** while the buyer is **active.** On the other hand, the creative advertising in newspapers, magazines, trade papers, etc., is active while the buyer is passive.

Both are necessary in a well-rounded campaign. The function of creative advertising is to make people want what they did not want before, and to educate them to the point where they are conscious of that want. Reference advertising is an aid at the critical time when the initiative has passed from the seller to the buyer; when the desire to buy is strong, and the question is whether the prospect will buy the advertised article, another brand, or cool off altogether while waiting for the "catalog and name of nearest dealer." If the advertisement which suggested the want can be supplemented by another directing the prospect to the place where he can see the goods, the efficiency of the entire advertising expenditure will be greatly increased.

The directory has a 100 per cent prospect circulation inasmuch as its very nature makes it sell only where it will be used. Its circulation is not so much gauged by the number of copies sold as by the number of people who consult it. There are directory libraries maintained throughout the country for reference purposes, and in them may be found all the most important directories published. Surprise is often expressed by librarians at the number of people who are constantly consulting these sources of information.

There are many kinds of directories and "catalogs," each covering some trade, or locality, or group interest, in which organized information may be found that is useful to the buyer. In every buying center the local directory presents a medium of universal accessibility. For over a hundred years people have been accustomed to refer to it as a logical place to find certain kinds of information. A system of exchange enables each publisher to offer free access to a file of the latest issues of directories from all over the country. This gives every local advertisement a nation-wide accessibility.

The long life of a directory advertisement is a strong point in its favor. It has an existence of 365 days and sometimes twice that, depending on the frequency of issue. It is always kept where it can be found by the buyer when he wants it.

It has a strong appeal for institutional advertising, as reputable publications give prestige to the advertisers who patronize them. It is a significant fact that from 80 to 90 per cent of the advertising in these publications is renewed year after year.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

CAUTION! Deal only with well known publishers when giving orders for Directory Advertising
Read all orders carefully before signing—Pay no money in advance

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

CAUTION! Deal only with well known publishers when giving orders for Directory Advertising
Read all orders carefully before signing—Pay no money in advance
All well-known publishers instruct their men to collect nothing prior to publication.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

YOUR CITY DIRECTORY SHOULD BE TRADE-MARKED
Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

YOUR CITY DIRECTORY IS STANDARDIZED

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

CAUTION! Deal only with well known publishers when giving orders for Directory Advertising

Read all orders carefully before signing—Pay no money in advance

All well-known publishers instruct their men to collect nothing prior to publication.

YOUR CITY DIRECTORY IS STANDARDIZED
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.
